

## Started as Volunteers on Gazela and Stayed in the Maritime Trade

This is a tough one, mainly because the definitions vary. For the modest purpose below, I'm going with:

Shipwright: Designs ships (or uses another designer's plans) and oversees construction.

Boatwright: Does the same on a smaller scale.

Ship's Carpenter: Takes direction from a shipwright. Accomplished at marine carpentry.

Please forgive (and correct) any errors in my understanding of what folks do or have done. I promise it's from ignorance not lack of respect. -Naomi

Please contact the Guild Office, [office@gazela.org](mailto:office@gazela.org), with Volunteer Project in the subject line, to correct or add to this list.

John Tohanczyn	Shipwright
Ray Bender	Ship's carpenter
Scott Cointot	Captain, K-Sea, Ship's carpenter
Ann Cleaver	Captain, Ship's carpenter
Patrick Flynn	Shipwright
